

Brand Guidelines

Brand Essence

The brand doesn’t just claim to protect founders it demonstrates protection through spatial design, color hierarchy, and systematic construction.

Who We Are

SenseFound validates startup ideas before founders waste years building the wrong thing. We combine AI-powered analysis with human expertise to find fatal flaws early—when pivoting is still possible, not painful.

What We Believe

Most startup failures aren’t execution problems. They’re validation problems. Founders don’t lack talent—they lack evidence. We provide that evidence: scientific, rigorous, and brutally honest but never cold or uncaring.

Our Promise

Courage Through Clarity. We help anxious technical founders move from paralyzing uncertainty to confident action through systematic validation. AI-Powered analysis. Human-Protected guidance.

The Visual System

Every design element reinforces protection and validation:
Protective brackets = The framework that contains and validates ideas
Warm peach-cream (65%) = Human-first approachability and support
Teal clarity (20%) = AI-powered precision and scientific rigor
Structural neutrals (15%) = Professional credibility and honest truth-telling

2025

Brand Essence

- We are: Scientifically rigorous, evidence-based, honest, protective, clear, systematic
- We are not: Cold, academic, dismissive, sugar-coating, vague, generic startup advice

Target Audience
Anxious technical founders (CTOs, engineers, product builders) at the pre-validation stage who fear wasting years on flawed ideas.

They need: Evidence-based validation before committing significant time and resources

They feel: Paralyzed by uncertainty, isolated in decision-making, vulnerable to catastrophic mistakes

We provide: Scientific clarity that enables confident action

Logo Mark

Logomark Construction

- SENSEFOUND logomark

A logomark is an identify mark or symbol that doesn't contain the business name, like a drawing or image that represents the business.

APP Icons Construction

- white logomark
- gradient logomark
- dark background with rounded corners

The app icons use the logomark contained in a dark-color rectangle with rounded corners.

2025

Logomark Construction

- sensefound logomark
- sensefound word mark in Safiro semibold font.

The logo contains the logomark and the wordmark. Both elements have been exactly positioned and proportionally fine tuned.

		2025
Logomark on Background The default logo is preferred on light backgrounds. The white logo should be used on darker backgrounds, as well as image and colourful backgrounds.	- sensefound logomark - sensefound word mark in Safiro semibold font.	The logo contains the logomark and the wordmark. Both elements have been exactly positioned and proportionally fine tuned.
SENSEFOUND Brand Guidelines	Logo	8

SENSEFOUND

SENSEFOUND

Mono Colour Logo

Sometimes, often due to production costs, only one colour of ink is available and so the logo must be reproduced using only one colour.

In this scenario, the logo, logomark or word mark must be used following the convention of using a light colour type on dark background or in a dark colour type on light background.

2025

Clearspace

- keep the space of the height and the width of the logomark (12x) clear at all times
- applies for all the logo mark and the logo variants

It's important to maintain proper spacing around the logo to avoid overcrowding.

Also, the use of whitespace keeps the brand feeling clarity.

Modular Logo Construction

The logo elements adapt to context while maintaining strategic truth: protective framework creates the validated path forward. Just as we customize our methodology for each founder, the visual system reconfigures for each application.

Compact for efficiency. Framed for impact. Distributed for narrative. Always systematic.

- Use the space of the height and the width of the letterform ((8x) to position the elements of the logo
- applies for all the logo mark and the logo variants

It's important to maintain proper spacing around the logo to avoid overcrowding.

Also, the use of whitespace keeps the brand feeling clarity.

	176 px		
	88 px		2025
	44 px		
Scale and Minimun Size The logo is designed to scale to small sizes on the print and screen. When significantly reduced, the logo will becoame illegible. We reccomend not going below 22 pix size to preserve quality of the logo.	22 px

				15

PROTECTION #B77A5F
Grounded stability, protective
guidance, earth/foundation

AUTHORITY #2C2C2C
Honest truth-telling,
professional credibility

SPACE #FDFAF6
Simplicity, modern sophistication

2025

Secondary Palette

The secondary palette provides essential support to the primary colors, enabling functional hierarchy and strategic emphasis across all brand applications. These colors work systematically with teal and soft peach to create the complete visual language of SenseFound's protective validation methodology

			2025
Usage Proportion		SenseFound’s 65-20-15 distribution embodies “AI-Powered, Human-Protected” through visual hierarchy. Warm Foundation (65%): Soft Peach and Cream dominate, creating approachability and human-first support that invites founders into a protective space. Scientific Authority (20%): Teal provides measured intelligence without overpowering—positioning AI as supportive tool, not dominating force. Structural Support (15%): Charcoal and Terracotta ground the palette with professional credibility and readability. Maintain these proportions across all touchpoints to preserve the balance between courage and clarity.

Tone

- Clear and confident (not vague or wishy-washy)
- Protective but not patronizing
- Evidence-based, never hyped

Examples

Website Hero

Most startup ideas have fatal flaws. We help you find them before you waste years building the wrong thing.

Email to founder

Your validation report is ready. We found three critical issues in your business model—but also two strengths worth protecting. Let's talk through what this means for your next steps.

Social post

73% of startups fail because they built something nobody wanted.
Not because founders weren't smart. Because they didn't validate first.

Pricing page

Validation costs \$2,500. Building an unvalidated startup for 2 years costs everything. We're the cheaper option.

404 page

This page doesn't exist. Unlike your startup idea which might. Let's find out.

Brand Voice

- SenseFound speaks like a protective expert—honest and direct, but never harsh.

Write like: A trusted advisor telling hard truths with genuine care

Don't write like: Corporate tech-speak or aggressive sales copy

Key principle: Evidence-based clarity that protects, never punishes

Application

2025

Print Media - Billboards

- Billboards create warm visibility against urban environments, speaking to founders in moments of doubt. Teal blocks positioned around founder imagery create visual scaffolding—literally demonstrating “protection” through spatial composition rather than just claiming it.
- Use peach-cream gradient as dominant background (70%) for maximum visibility
- Position bracket elements and teal blocks strategically around imagery to frame and protect the subject

2025

Print Media - Outdoor Production

- Large-format applications balance warmth with professional credibility.
- Maintain color proportions at large scale
- Ensure smooth gradient transitions in production

Print Media - Marketing Materials

- Marketing materials demonstrate systematic flexibility across all print formats.
- Use modular logo construction for different aspect ratios
- Maintain 65-20-15 color proportions

Digital Media - UX and UI

- Digital interfaces prioritize clarity, with warm colors reducing founder anxiety.
- Use teal for primary actions, peach/cream for supporting elements
- Maintain generous white space

Digital Media - Social Media

- Social applications maintain brand recognition across feeds, icons, and notifications.
- Adapt app icons using logomark in dark container
- Use brackets as framing devices in compositions
